DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 31 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 2 of U.S. Patent No. 5,669,909. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim a fusion device having an elongate body and external threads extending substantially entirely along the length of the body, where the body has a first diameter adjacent a first end and a larger second diameter adjacent the opposite second end, and where the body is at least partially formed of a porous biocompatible material.

Allowable Subject Matter

2. Claims 19-30 and 32-50 are allowed.

3. The following is an examiner's statement of reasons for allowance: The terminal disclaimer filed on July 16, 2004 disclaiming the terminal portion of any patent granted

Art Unit: 3731

on this application which would extend beyond the expiration date of U.S. Patent No. 6,645,206 has been reviewed and is accepted. The terminal disclaimer has been recorded, and it overcomes the double patenting rejections in the Office action of May 18, 2004. Also, none of the prior art of record, alone or in combination, discloses a fusion device having, inter alia, a solid, elongate body, external threads substantially along the length of the body, and a hollow interior, where the body is formed of a porous biocompatible material, where the external threads are circumferentially interrupted by a pair of oppositely disposed truncated side walls to define a pair of arcuate side walls, and where the body has a first diameter adjacent a first end and a larger second diameter adjacent an opposite second end.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

4. Applicant's arguments with respect to claim 31 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3731

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
